

CORNER BASIN FIXING KIT

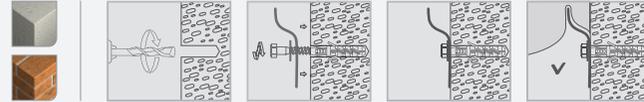

This set is suitable for fixing corner basins onto solid base materials

R-S1-CBF

The kit includes two main vertical brackets designed to clamp onto the basins back strap and fit to the wall. These brackets can be adjusted to the correct height/position required. The plugs have a two-way expansion mechanism that provides a strong anchorage in solid base materials. The screws can also be used to install into timber.

SANITARY FIXING KIT

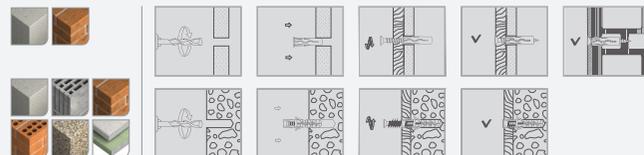

Suitable for fixing to plasterboard, solid walls and floors

R-S1-SFK

For installation to plasterboard walls use the brown plugs and for solid walls, use the grey plugs. Nylon bushes are supplied to protect the ceramic when tightening the screws. The plug has a two-way expansion mechanism, which provides a strong anchorage in solid base materials.

SANITARY FIXING STAND OPTIONS

BASIN FIXING KIT 8X100

Designed for secure
mounting of washbasins
to solid base materials

R-S1-KPU120

This kit is used to fix small washbasins to solid walls. It can also be used to fix washbasins to partition walls, where a timber frame has been built into the cavity. Nylon bushes are supplied to protect the ceramic when tightening the screws. The plug has a two-way expansion mechanism, which provides a strong anchorage in solid base materials.

BASIN FIXING KIT 10X140

Designed for secure
mounting of washbasins
to solid base materials

R-S1-KPU141

This kit is used to mount large washbasins to solid walls. It can also be used to fix washbasins to partition walls, where a timber frame has been built into the cavity. The plug has a two-way expansion mechanism, which provides a strong anchorage in solid base materials.

WC FIXING KIT SHORT PLUG

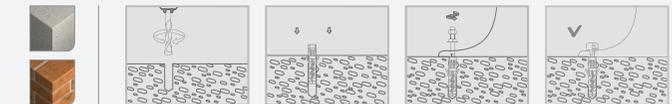

For fixing WC or bidet
into shallow holes

R-S1-WCB-B

A Vertical fixing kit suitable for fixing WC or bidets into solid base materials. The kit can be used without the expansion plugs to fix into timber floors. Nylon bushes and caps are supplied to protect the ceramic when tightening the screws.

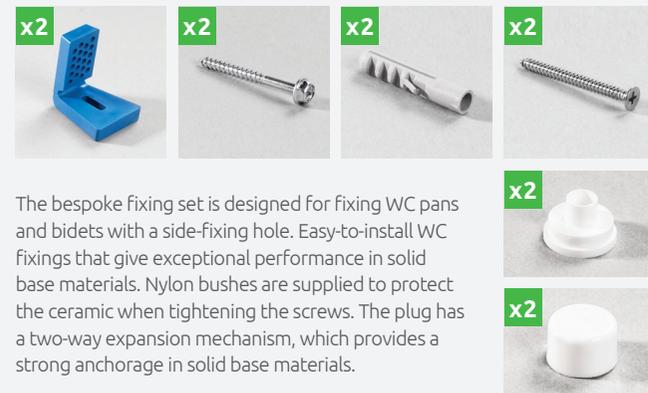

WC OR BIDET SIDE FIXING KIT

Designed for side mounting
WC and bidets

R-S1-KPUPBS

The bespoke fixing set is designed for fixing WC pans and bidets with a side-fixing hole. Easy-to-install WC fixings that give exceptional performance in solid base materials. Nylon bushes are supplied to protect the ceramic when tightening the screws. The plug has a two-way expansion mechanism, which provides a strong anchorage in solid base materials.

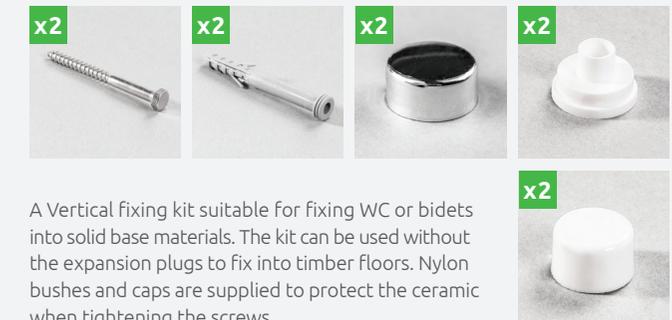

WC FIXING KIT LONG PLUG

For fixing WC or bidet
into deep holes

R-S1-WCB-F

A Vertical fixing kit suitable for fixing WC or bidets into solid base materials. The kit can be used without the expansion plugs to fix into timber floors. Nylon bushes and caps are supplied to protect the ceramic when tightening the screws.
